The New Carb Ratio Plan Settings (insulin carb ratio plan) include the start time and the carb ratio presented in grams per unit.

The New Correction Factor Plan Settings (insulin sensitivity) include the start time and the Correction Factor presented in milligrams per deciliter per unit.

JOHN RICE
Date of birth: 03/04/1995

Approval date: 03/11/2020

On 03/11/2020 your provider recommended that you change your pump settings to the following values:

General Comments

- I noticed that many of your highs may be avoided. Entering your glucose level (in addition to your carbs) into the bolus calculator may help you improve.
- I noticed that many of your highs may be avoided. Delivering an insulin bolus for every meal and snack may help you get better outcomes.
